PART C – FEDERAL AND STATE WAGE RATES

DELETE: Federal Wage Rates (MO20200001 02/14/2020)

ADD: Attached Federal Wage Rates (MO20200001 03/13/2020)

SECTION V – TECHNICAL SPECIFICATIONS

ITEM P-152 EXCAVATION, SUBGRADE, AND EMBANKMENT

REVISE: Section 152-2.2.b., sentence five, to read, “This excavated material shall be paid for at the contract unit price per cubic yard for unclassified excavation – undercut/backfill.”

REVISE: Section 152-3.3, sentence two, to read, “Unclassified Excavation – Undercut/Backfill is an assumed portion of the site that will be unsuitable – all undercut will be placed off site.”

REVISE: Section 152-3.3, sentence three, to read, “Unclassified Excavation – Off Site Placement shall be the portion of the actual cut that cannot be placed on site as embankment.”

REVISE: Section 152-4.1, item P-152-4.2 to read, “Unclassified Excavation – Undercut/Backfill – per cubic yard”

CLARIFICATION: Payment for undercut will include the required backfill with suitable earth that would’ve otherwise been disposed of or stockpiled off-site.

ITEM P-219 RECYCLED CONCRETE AGGREGATE SUB-BASE COURSE

REVISE: Section 219-1.1. All references to 10” layer shall be revised to 12” layer.

ADD: A third paragraph, “If a shortfall of P-219 material is realized during the Phase 2 pavement structure construction, an aggregate meeting the P-209 specifications shall be used to fill the resultant void. This work will be considered incidental to the P-219 pay item.”

ADD: Section 219-4.4:

“219-4.4 Any shortfall in P-219 volume necessary to create the 12” layer beneath all PCC pavements shall be placed using an approved P-209 aggregate. There will be no additional payment associated with this P-209 volume backfill.”

REVISE: Section 219-5.2:

“Payment will be made under:

Item P-219-5.1 **12”** Recycled Concrete Aggregate Sub Base per square yard”

CLARIFICATION: When including Phase 1 PCC panel replacements, the P-219 volume is approximately balanced at a 12” depth for the Phase 2 work areas. There is still an excess following Phase 3 removals and replacement. A minor shortfall in Phase 2 was calculated using no shrink/swell and assuming no HMA inclusion.

ITEM P-501 CEMENT CONCRETE PAVEMENT

REVISE: Section 501-2.1.c., Limits for Deleterious Substances in Coarse Aggregate Table, percentage by mass of Chert.

Chert ² (less than 2.40 Sp Gr.)	ASTM C123 using a medium with a density of Sp. Gr. Of 2.40	1.0³

ITEM L-125 INSTALLATION OF AIRPORT LIGHTING SYSTEMS

REVISE: Section 125-2.7, Lights Table – Runway and Threshold/End lights to show 18” height, in lieu of 24”.

REVISE: Section 125-2.8, Signs Table and Note, as shown below:

Signs

Type	Size	Style	Class	Mode	Notes
L-858Y (L)	2	2	2	1	Direction Signs (LED)
L-858R (L)	2	<u>2</u>	2	1	Mandatory Signs (LED)
L-858L (L)	2	2	2	1	Location Signs (LED)

NOTE: ~~L-858R Mandatory Runway Hold Signs shall be Style 3—powered from a 5-step series lighting circuit of 2.8 to 6.6A.~~ All other signs shall be Style 2 – powered from a 3-step series lighting circuit of 4.8 to 6.6A.

CLARIFICATION: All mandatory signs are on a dedicated 3-step lighting circuit. Directional and location signs are on their associated 3-step taxiway lighting circuit. No Style 3 signs are required.

PROPOSAL FORMS – PROPOSAL FORM:

REPLACE: The existing proposal form with the new proposal form attached to this addendum.

CLARIFICATION: Quantity corrections, revised depth of P-219 layer and resultant excavation quantities added to the proposal form. Changes in underlined red. Bid hold time was mistakenly shown as 180 days in Acknowledgements by Bidder, Item e. That was corrected to the intended 90 days but will likely be much less, as the FAA funding is already available.

The **CONSTRUCTION PLANS** are revised as follows:

CLARIFICATION: **There will be no on-site disposal/stockpile area for excess earth nor excess P-219 that remains at the completion of the project.** Please plan for other arrangements and adjust bids accordingly.

HEAVY AND HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.80 for calendar year 2020 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.80 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2020. If this contract is covered by the EO and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must pay workers in that classification at least the wage rate determined through the conformance process set forth in 29 CFR 5.5(a)(1)(ii) (or the EO minimum wage rate, if it is higher than the conformed wage rate). The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60). Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide

ADDENDUM NO. 1 - REPLACEMENT FEDERAL WAGE RATES

employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

ADDENDUM NO. 1 - REPLACEMENT FEDERAL WAGE RATES

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on

ADDENDUM NO. 1 - REPLACEMENT FEDERAL WAGE RATES

a wage determination matter

- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
